

## SSL Proxy Certificate Installation Guide (Java)

In a browser (i.e. Chrome, IE, Firefox, etc), type <u>http://my.network-box.com:4242</u> or <u>https://my.network-box.com:4243</u>

Click on the green SSL ribbon:

| Network Box     Next generation managed security | 5 | Welcome to Network Box<br>User Name<br>Password |
|--|---|---|
|  |   | Login   |

Download the PEM certificate:

Click on the Start Menu and type "configure java" in the search bar and press Enter:

| configure java × |  |  |  | Shut | Shut down + |   |
|------------------|--|--|--|------|-------------|---|
|                  |  |  |  |      |             | ( |

In the Java Control Panel, select the Security tab and then click on Manage Certificates:

| 🖆 Java Control Panel  |                      |
|---|----------------------|
| General Update Java Security Advanced   |                      |
| ☑ Enable Java content in the browser  |                      |
| Security level for applications not on the Exception Site list  |                      |
| Very High - Only Java applications identified by a certificate from a trusted au<br>allowed to run, and only if the certificate can be verified as not revoked. | thority are          |
| Itigh - Java applications identified by a certificate from a trusted authority are<br>run, even if the revocation status of the certificate cannot be verified. | allowed to           |
|   |                      |
| Applications launched from the sites listed below will be allowed to run after the a  | appropriate security |
| prompts.  |                      |
| Click Edit Site List<br>to add items to this list.  | it <u>S</u> ite List |
| Restore Security Prompts  | e Certificates       |
|   |                      |
| OK  | icel <u>A</u> pply   |

## Click Import:

| Certificates                           |                                       | × |
|--|---------------------------------------|---|
| Certificate type: Trusted Certificates |                                       | • |
| Issued To                              | Issued By                             |   |
| WebEx Communications Inc.              | VeriSign Class 3 Code Signing 2004 CA |   |
| nbusa5txus1_SSL                        | nbusa5txus1_SSL                       |   |
| Citrix Online                          | VeriSign Class 3 Code Signing 2010 CA | 1 |
|  | Remove Details Close                  | - |

Find the file you downloaded. (Make sure to select "All Files" for the Files of type option.)

Highlight the file, and click Open.

| Look in: Downloads      Look in: sslproxycert.pem | ] |
|---|---|
| ssiproxycert.pem                                  |   |
| Recent Items                                      |   |
| Desktop   |   |
| My Documents                                      |   |
| Computer  |   |
| File name: sslproxycert.pem                       | ] |
| Network Files of type: All Files                  | J |

Click "Close" and then "OK."

You have successfully installed the Network Box SSL Proxy certificate for Java.
